

APPLICATION POLICY 2020-2021 School Year

Sistema Utah is an afterschool music program hosted at American Preparatory Academy at both West Valley City schools. This program is offered on most school days for three hours each day, beginning at the end of the academic school day. The program serves students in grades 2 and higher.

Parents who wish their students to participate must complete an application for their student(s) every year. This is accomplished via an online application form which needs to be completed in its entirety.

Participation in the program may be limited, of necessity, in order to maintain the safety and quality of the program. Applications will be received and classes filled by the Sistema Directors. The capacity of the program is set by the Sistema Directors annually based upon funding and available staff.

You will receive an email from the campus Sistema Director when your child is accepted into the program. You will also be notified if there is not sufficient space to accommodate your student in the program.

Students will need a quality instrument to participate in the program, and the Program Staff can help parents in locating an instrument; however, the program does not provide the student instruments.

Parents and students are expected to abide by the policies and behavior standards at American Preparatory Academy.
